

Brachyscome multifida 'Break of Day'

Brachyscome Break of Day, Cut leaf Daisy

Description

A hardy, low growing, long flowering, bushy, native perennial plant. Masses of deep mauve, daisy-like flowers are displayed all year long. Fine, dark green foliage. Good for mass planting in rockeries, garden beds or as an edging plant in part shade to full sun. Tolerant of a wide range of situations and soil types including heavy clay. Tolerates periods of dryness but keep moist in dry weather. Is frost sensitive. Low maintenance once established but feed regularly for best results and remove dead flower heads.
